Debating Cuban Exceptionalism

Edited by Bert Hoffmann and Laurence Whitehead

This volume traces the developments in Cuba following the fall of the Berlin Wall in November 1989 and the subsequent definitive demise of state socialism. Working from the premise that most non-European countries did not undergo the economic and political regime changes experienced by their European counterparts, this volume examines the nature of Cuban socialism. Topics covered include: the reasons for the persistence of "the Cuban model," and an examination of the complex interaction between elite and non-elite actors, as well as between domestic and international forces.

Bert Hoffmann Bert Hoffmann is Senior Researcher, Institute of Latin American Studies, GIGA German Institute of Global and Area Studies, Hamburg. **Laurence Whitehead** is Official Fellow in Politics, Nuffield College.

"This is a work of great sophistication and scholarship."
--Hal Klepak, Professor of History, Royal Military College of Canada

"The authors argue their positions lucidly and enhance the debate on Cuban exceptionalism. Together, they provide a solid baseline to explore Cuban dynamics post-Fidel."
--Mauricio A. Font, Director, Bildner Center for Western Hemispheric Studies, City University of New York

"This extraordinarily timely and illuminating volume on Cuba and its likely future breaks new ground...this thought-provoking collection dispassionately analyzes Cuba in comparative historical, political and economic perspective."
--Abraham Lowenthal, Professor of International Relations, University of Southern California
