

“Introduction to Zotero”

Zotero is a free, open-source tool that helps you collect, organize, cite and share your research sources. This course will introduce the basics of Zotero such as: installation, adding sources to your library, organizing and managing your citations, creating a bibliography, and using the Microsoft

Word plug-in to easily insert citations from Zotero into your documents. Participants are encouraged to bring their personal computers so that they may download and interact with the program.

About the lecturer

Dr. Birte Pfeiffer is Research Data Manager at the GIGA Information Centre.
